APRIL

We have new works started as we seek to plant new churches. We have seven construction and expansion projects underway and in need of materials. Our new building at the School for deaf is nearing completion. At Queretaro the long process of full Mexican accreditation is completing. A new camp is being construction at Arteaga while we make improvements in the three other camps. This sacred time of the year is traditional time for Revivals and Unity meetings. We celebrate the forgiveness of sins and the resurrection of Jesus Christ -'God's son,

Francis and Pam
