The Mission continues to send support to over 50 ministers in 13 states who are serving churches and starting more. Many areas have endured heavy rains but clean up and bounce back. The Con Mis Manos school continues classes and more construction. We continue the medical work, and feeding programs, helping students whenever we have the means. Many churches continue construction expansions and if we have funds over salaries any given month, we send money for materials. Churches celebrate anniversaries and sponsor unity meetings and womens retreats.

THANKS FOR YOUR GIFTS!
