**Thanks to all who responded to our emergency at Con Mis Manos Deaf School. We have new tires for our vans, that were destroyed by Cartel spikes on streets. Also new Air Conditioning compressors**

**HELP NEEDED!** We have many church building and expansions on hold right now. These are critical to the growth of the congregation. We have not been able to send U.S. work teams so we have tried to set aside money to send for materials. The members are eager to work, but we have seen cuts in our support and are barely able to help the ministers. We have six church buildings in badly need of new roofs. If a church or individual would consider a one-time gift designated for construction it would be a **HUGE BLESSING** to these folks whose meeting place is simple compared to our edifices here in the States, but still enables them to get projects finished and continue to grow. Please pray about this situation. The weak dollar here has already cut 20% of pesos off every dollar sent making matters more difficult for families. Thank you for your consideration.
